World Food Programme

Session 3

Going visual in a virtual world – how visualization is bringing greater engagement to evaluation discussions.

What do you wish to learn
from this session?

Lessons on conducting online visual sessions

How to integrate visualization methods into my work

Online collaboration tools / methods

Clients/users/beneficiaries can use and master easily to provide input into evaluations

In this 40 min…

Introduction

Presentation
about visualization methods and tools

Reflection
using graphic summary

Co-creative dialogue
Integrate the methods into your work

Key takeaways

Going visual in a virtual world –
how visualization is bringing greater engagement to evaluation discussions.

Picturing innovation in Bangladesh, Laos and Myanmar.

Yumiko Kanemitsu,
Regional Evaluation Officer, WFP Regional Bureau for Asia and the Pacific
Keisuke Taketani,
Graphic Facilitator

gLOCAL evaluation week 2020, 4th June

The problems of evaluation

Finely distilled?

Easily digestible?
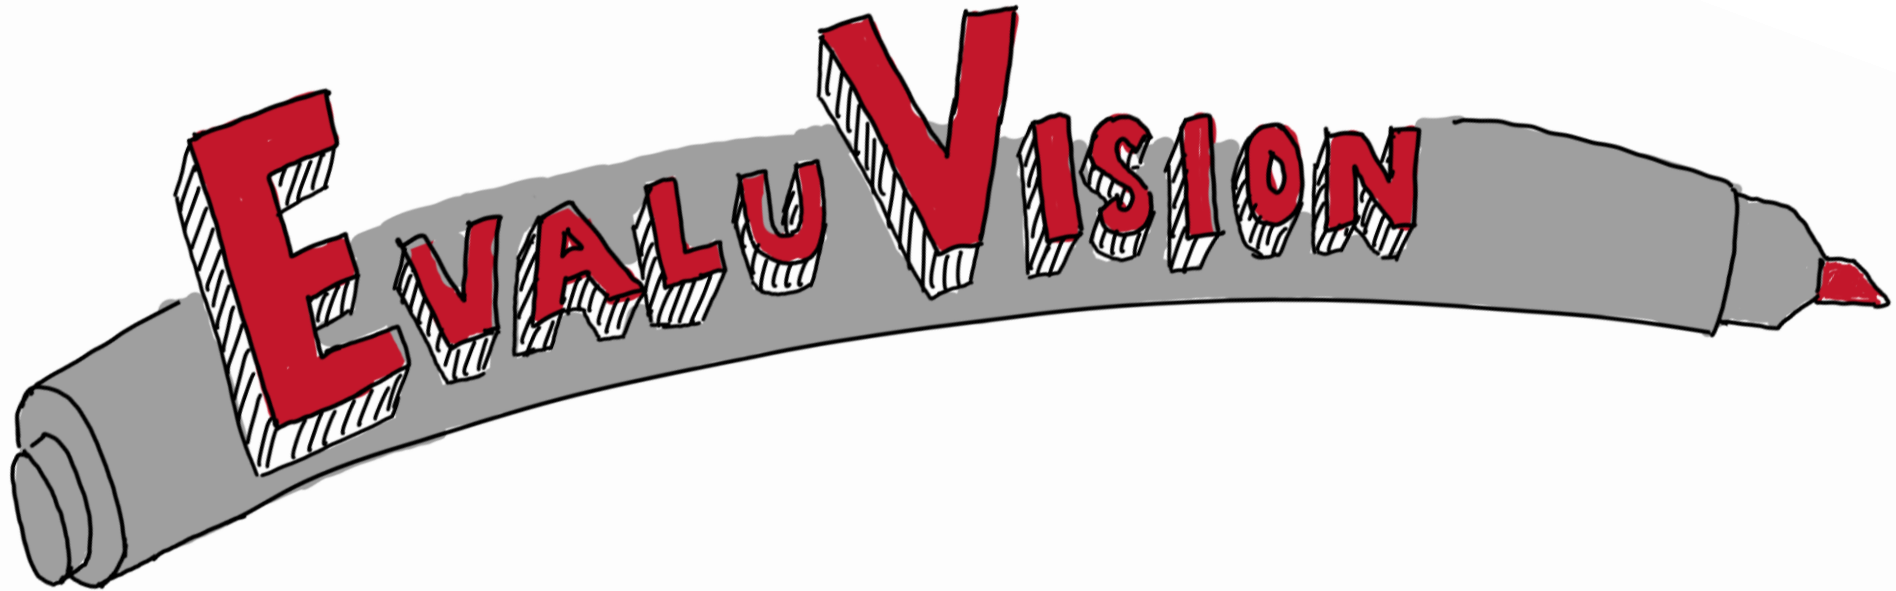

Widely disseminated?

Today, we are going to talk about

What is EvaluVision?

Case:
On-line EvaluVision
in Myanmar

Tools and
Techniques and
how we can
make it better?

EvaluVision

Evaluation Facilitation + Visual Thinking

Benefits of EvaluVision

Engagement and collaboration

Big Picture

Solution Focus

**Communication**

The Three Pillars of EvaluVision

1 Participation

2 Active learning

3 Graphic facilitation

3 cases of EvaluVision

Bangladesh

Lao PDR

Myanmar

CASE FOR TODAY

Myanmar

Visual Thinking Evaluation Validation Workshop of Relief Food and Cash Assistance to Conflict-affected people in Kachin and Northern Shan

Purpose
- to understand the key findings of evaluation through a presentation and graphic summary
- discuss and validate the key findings
- identify and prioritize next steps which will feed into management response

Participants
WFP staff Main office, sub-office, work from home

Online Collaboration Tools

List of online collaboration tools

| Tools	Description	Pro	Con	Pricing
Mural www.mural.co	digital workspace for visual collaboration	Mural is a powerful collaboration tool. A "virtual whiteboard" doing any collaborative decision making, design thinking, with remote teams. Mural is faster than Miro	Getting the hang of controls especially if you are using on a computer (mouse vs trackpad controls are a bit different).	$12.00 per month, per user. (billed annually) $16.00 per month (billed monthly); with free trial
Miro miro.com/	Online Collaborative Whiteboard Platform	Miro has unlimited canvas (3 canvas with free version)	The history of changes isn't that easy to track - who did what and when, who's put this element? when? what was added? etc	$8 Per member/month billed annually, $10 per member/month billed monthly; with free version
Mentimeter www.mentimeter.com	Interactive presentation software	very good in real time voting	Limited function beyond presentation slide decks and voting	Free; $9.99 /month Billed annually, excl. tax.per user for All the essentials for interactive presentations; $24.99 /month Billed annually, excl. tax. per user, everything unlimited
Linoit en.linoit.com	Sticky and Photo Sharing	User friendliness with minimal user interfeace. free, no instruction needed on how to use. No login required for users. Only facilitator needs to have an account.	Delay in displaying the notes.	Free
Creately creately.com	Chart, Diagram & Visual Canvas Software	User friendly interface to select the type of diagram you wanted and the ease of use (Drag & Drop).	Very rarely the application throws run time error	Free for 5 public documents; Personal: $4/month (Billed annually); Team: $12/month (Billed annually)
Google Jamboard jamboard.google.com	Interactive business whiteboard	free, easy to use with basic tools.	Unless you buy google hardware called jamboard, this tool itself doesn't compete with others. And Jamboard costs $5000	Free
Stormboard stormboard.com	Digital visual workspace	It enables large groups of training participants to co-create Q&A or process descriptions in real time. Participants learn how to use it quickly and can focus on the exercise, not the tool.	With more than 20 parallell users in the same Storm, the software sometimes gets a bit slow.	Free for teams of 5 or less; For small-to-medium sized teams: $10.00* monthly per sure; Enterprise: $16.67 per user monthly
